Subject: Apparent bridges threat

?Good evening folks:

Please see the email below that was sent to the Premier and the Mayor of Halifax earlier today. This has been shared with the Halifax Dartmouth Bridge Commission as well.

This person appears to be threatening to close bridges in one way or another as a means to having vaccine mandates lifted. There seems to be a focus in the Bridgewater area, as well as the "highway out of the province" ...H104.

Please have staff keep an eye open for any irregular activity around our bridges in the coming days, and let myself and Ian Burke, cc'd here, know ASAP.

Thank you
 Mark

Subject: [External Email] Bridge closures coming in the very near future unless you put out a schedule to lift vaccine mandate...very quickly

[This email has been received from an external person or system]

Premier, Mayor of Halifax:

Yesterday I emailed to say we are planning bridge closures unless this vaccine mandate gets lifted NOW. You are doing a press conference tomorrow. Many countries are free of mandates and now Ab and Sask are too. There needs to be a clear and rapid lifting or those bridges get stopped very soon. I mean real soon. We are waiting and the date and time we start our operation will be determined by what you say tomorrow.

At the start you said 75 % vaxx. We did it. Mandate didnt end, instead it got more entrenched. Just today I got an email from our school board reinforcing these mandates despite all the science. When I got my booster the nurse said it was 70% vaxx rate for herd immunity. Worse, you dont recognize the immunity that comes with infection. We are WAY over the bar.

Tomorrow. Or we make the final prep to get rolling. Those bridges can be shut in seconds with peaceful protest. And it will be coordinated. 2 bridges in Bridgewater. 2 here. Overpasses. One highway out the province.

You choose. You work for us, not the NSGEU, and our voices WILL be heard.

And you stop making people choose between their jobs and putting something they don't want in their bodies. There is room for free choice in those statistics. This change needs to be immediate. No passport. No forced choice.

And by the way - the fact you don't put out an email for your medical health officer Dr Strang - classic government. We are done with your mandates advised by people whose salaries get paid no matter what, who refuse to acknowledge the science, and smear those who disagree. And worse, claim the legacy of the 800 Nova Scotians who died for freedom in WWII to force people to pick between feeding their families or injecting stuff in their bodies they don't want. Unbelievable. Truly unbelievable. Well, we're coming, and you are going to listen.

You choose.

Regards Steve
